**METALU PLAST**  
Much more than sport

# Street Soccer

“PLAY SOCCER  
UNRESTRICTED,  
FREE ACCESS  
AND SECURIZED”

## METALU +

- + Free access soccer pitch
- + Perfect linearity of the grids and posts to ensure the same ball rebound as indoor/outdoor soccer 5 pitches

ORIGINE  
FRANCE  
GARANTIE  
AFNOR Cert.61477

The Street soccer pitch is a free access 5-a-side soccer playground. Its square posts structure and its grating infill offers a perfect flatness of surface, which allows to play with the bounce on the sides like soccer 5. The access is done by a side of goal through a half-grid or a rotating PRM, which prohibits the entry of the mopeds in the playing area. The Metalu Plast's street soccer pitch is a pure urban equipment, dedicated to a playful practice in full safety.

## THE STRUCTURE

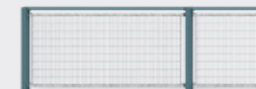

- Posts 80 x 80 mm in galvanized steel, powder-coated in RAL textured - With black PVC caps
- Grating panels in hot raw galvanized steel : interaxis 2.16 m or 1.54 m

## THE PEDIMENTS

- Made of 2 m grating panels, in hot raw galvanized steel (2 grids of 1 m), topped with 3 m of square mesh net 145 x 145 mm, Ø 2.5 mm
- Posts 80 x 80 mm in galvanized steel, powder-coated in RAL textured - With black PVC caps

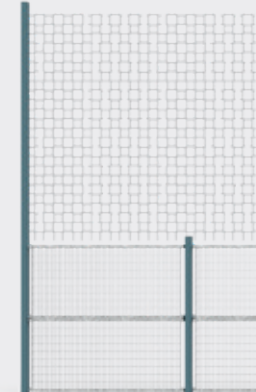

## 2 TYPES OF SIDE

### Side type 1

- 1 m grating panels in hot raw galvanized steel
- Handrails 80 x 80 mm in galvanized steel, powder-coated in RAL textured - With black PVC caps
- Handrail posts 80 x 80 mm, in galvanized steel, powder-coated in RAL textured - With black PVC caps

### Side type 2

- 2 m grating panels in hot raw galvanized steel
- + 3 m net - square mesh 145 x 145 mm, Ø 2.5 mm
- Posts 80 x 80 mm in galvanized steel, powder-coated in RAL textured With black PVC caps
- 1 retention post 80 x 80 mm in galvanized steel, powder-coated in RAL textured with black PVC caps, in the middle of the side or on the side of a grating panel (avoids the use of spacer bars)

## THE GOALS

- One piece front frame 3 x 2 m in 80 x 80 mm galvanized steel, powder-coated
- Rear of the goals : 4 grating panels in hot raw galvanized steel
- Goal 1 - 2 full grating panels in hot raw galvanized steel
- Goal 2 - version 1 - 1 full grating panel in hot raw galvanized steel, and 1 rotating PRM in galvanized steel, powder-coated in RAL textured
- Goal 2 - Version 2 - 1 full grating panel and 1 half grating panel, in hot raw galvanized steel

## SIZE OF THE PLAYING AREA

- Pediments from 12 m to 25 m
- Side from 17 m to 39 m

## AVAILABLE COLORS, TEXTURED RAL
