

## Mini soccer goal made of steel

Article-No.: H1780

### Mini soccer goal made of steel

The fully welded goal made of hot-dip galvanized steel features a sturdy substructure made of a Hercules wire mesh. Ground anchors for embedding are included in the delivery, making the goal safe and stable and compliant with the standards for freely accessible sports equipment. This makes it perfect for playgrounds or other public areas. Especially when smaller children use the area, the goal with its dimensions of 1.20 x 0.80 m is particularly attractive.

#### Features

- Goal size: 1.20 x 0.80 m
- Construction: Fully welded
- Material: Steel, hot-dip galvanized
- Goal profile: 60 x 40 mm
- Goal depth: 65 cm
- Includes 2 tabs for ground fixation
- Includes 2 ground anchors for embedding in concrete
- Safety tested
- Complies with DIN EN 15312 standards

#### Advantages

- Long lifespan
- Stable
